**Library - The Learning Resource Center**

# INFORMATION BROCHURE

## Gyanoday - Library : The Learning Resource Center

Keeping in view the vision and mission of the Institute, Gyanodaya library has been established "to promote knowledge generation and application through its effective dissemination". The library acts as the main learning resource centre and caters to the information needs of the Institute's teaching, training, research and consultancy programmes. Operating from a spacious building of about 2800 square meter, fully air-conditioned, centrally located and functionally designed building with a seating capacity of 250 readers in five halls, the library is equipped with ergonomically designed furniture, fittings and fixtures. Library has a unique collection of more than 46000 Books, 107 print and 4900 online reputed international and national Journals (with bound volumes) in various disciplines. Library also has a substantial collection of Databases, E-Journals and CD-ROMs.

## Timings

In order to facilitate self-learning among students, library remains open round-the-clock, all days of the week, except Government Gazetted holidays. However, full range of services is provided from 09:00 to 17:30 hrs, whereas, circulation services take place up to 21:00 hrs only.

## Borrowing Entitlement

The members can borrow documents as per the following norms:

Faculty: 30 books for 3 months, Research Scholars: 15 books for 1 month, PGP Students: 8 books for 15 days, Officers: 10 books for 1 month, Staff: 5 books for 1 month.

# Collection

## Books

Library has acquired a collection of about 46,000 books on management, agriculture, social sciences and other allied areas. The collection is continuously being updated with latest titles of interest as scanned from a variety of standard selective sources. A selection of new acquisitions is displayed, for a week, in the entrance lobby, near the Reception Counter" and a monthly publication entitled "Current Additions" keeps the clientele informed about the latest arrivals. As collections are of various sizes and formats, most of them are kept on open shelves directly accessible to the users, while some rare items are preserved in closed stacks and made available only on request. The books are classified by "Dewey Decimal Classification" scheme. AACR2 is followed for cataloguing. Collection symbols are written at the top of the call number on the spine label of the document, e.g. R for reference, RA for rare, RE for report, T for thesis, H for Hindi books, CL for documents in children section etc.

## Periodicals

E-Journals: The library has access to 4900 online journals. E-Journals can be accessed at: http://192.168.1.13/library/alpha.asp

Current Subscription: The library is currently subscribing to 192 select periodicals.

Print: 107

Online: 85

Indian Journals: 87

Foreign Journals: 105

Magazines: 55

Newspapers: 17

Bound Volumes: The library stocks a collection of 22453 bound volumes of back files of periodicals.
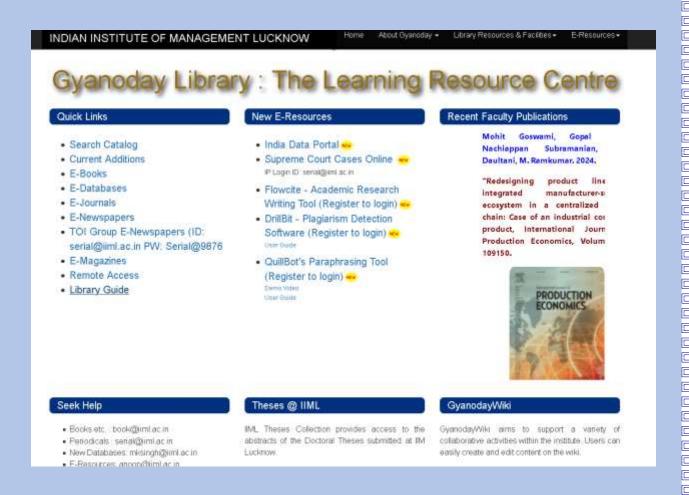

## Library Portal

## A Virtual Gateway to Library Resources

To cater the information needs of the users on their desktop and to give value addition to library services, library portal has been developed. It is accessible through the intranet at:

http://192.168.1.13

# Library Facilities

The library is operating in a fully automated environment with a blend of conventional documents and human interface in its services. Integrated library management software-LIBSYS is in place. Entire library resources are bar-coded and an On-Line Public Access Catalogue (OPAC) is giving information about its resources. The active collection of the library is tagged with the RFID (Radio Frequency Identification) tags and the RFID System has been installed for surveillance, issue return and other operations.

## Remote Access (Off Campus Access)

Library provides remote access facility to the users for accessing the supported library resources from outside the campus.

## OPAC

The OPAC (On-line Public Access Catalogue) eases the access to the document and it is accessible through the LAN. The documents can be searched by Author, Title, Keywords etc. It is accessible at:

http://192.168.1.14/

## Automated Circulation System

Automated Circulation System with RFID continued to provide a much-needed relief to the users and the staff, to cope up the heavy rush on the counter. Reminders, recalls, statistical data generation, report generations, reservations and other query responses became easy and prompt.

## Video Conferencing Facility

Gyanodaya provides video conferencing facility to the users to interact with knowledge experts anytime anywhere, globally. This facility was extensively used during the year for conducting interactive lectures, placement interviews, etc.

## Research Carrels

Nineteen specially designed cubicles fitted with computers and fittings- have been put in place to facilitate serious study/research.

## Cyber Lab

A cyber-lab equipped with eight Computers, is in place to facilitate the use of databases and online journals/resources.

## Children Section

On an increasing demand from the IIML community, a special section for the community children, consisting of children books and magazines has been set up in the library.

• ABI/INFORM Global

• ABI/INFORM Trade & Industry

• ABI/INFORM Dateline

• ABI/INFORM Archive 1905-1998

• The Wall Street Journal, Eastern Edition

• Journals in this Database: Archive Title Lists

• Journals in this Database: Title Lists

• Database Provider: ProQuest LLC

• Database Tutorial: ProQuest Training Tutorials

• Database Tutorial: ProQuest Training Materials

• Database Handout: ABI/INFORM Complete Information Sheet

• Database Tutorial: ProQuest LibGuide

## ACE KNOWLEDGE PORTAL

ACE Knowledge Portal is an exhaustive library of online databases covering data on companies, industries, mutual funds, macro economy as well as live markets. It also provides historical information on company, industry and economy.

Company Information

Corporate database of more than 30,000 listed and private companies with their Financials and non-financial information kept updated every day.

Sector

Industry analysis (Sector Outlook) for around 40 industries which covers demand & supply, growth factors, Budget impacts, Interest Rate changes, Infrastructure costs etc.

Mutual Fund

Database of 45 AMCs and more than 8000 schemes that includes basic details of the schemes and portfolios, asset / sector-wise details, fund manager's details.

Industry Information

Extensive coverage of more than 180 Industry and sub industry, financial aggregate and comparative data for Industry, Business Houses and Peer Group etc., along with 40 sectors outlook analysis.

http://192.168.1.13

Macro Economy Data with Tools

Coverage of more than 40 major Indian Economy Indicators like Foreign Exchange Reserves, Call Money Rates, Foreign Investments and IIP Index along with around 10 Industry Association data

Digital Library Information

Covering more than 30,000 listed and private companies Digital Annual Reports & Interim Result (.pdf format) supported with company offer documents along with Accord company/Sector Analysis and third party Brokers Research Reports.

## ACM DIGITAL LIBRARY

The ACM Digital Library (DL) is the most comprehensive collection of full-text articles and bibliographic records in existence today covering the fields of computing and information technology. The full-text database includes the complete collection of ACM's publications, including journals, conference proceedings, magazines, newsletters, and multimedia titles and currently consists of:

391,000 Full-text articles

2.0+ Million Pages of full-text articles

20,000+ New full-text articles added each year

44+ High Impact Journals with 2-3 new journals being launched each year

275+ Conference Proceedings Titles added each year

2,000+ Proceedings Volumes

8 Magazines (including the flagship Communications of the ACM, the most heavily cited publication in the field of computing according to Thomson-Reuters)

37 Technical Newsletters from ACM's Special Interest Groups (SIGs)

5,805+ Video files

594 Audio files

In addition to the full-text database, the ACM Digital Library is heavily integrated with and includes unrestricted access to the Guide to Computing Literature bibliography.

ANNUAL REVIEWS

Annual Reviews is a nonprofit organization whose mission is to provide the worldwide scientific community with a useful and intelligent synthesis of the primary research literature for a broad spectrum of scientific disciplines. Annual Reviews publications are among the most highly cited in scientific literature as indexed by the Thomson Reuters Journal Citation Reports® (JCR).

Since 1932, Annual Reviews has offered comprehensive, timely collections of critical reviews written by leading scientists. Annual Reviews volumes are published each year for 46 focused disciplines within the Biomedical, Life, Physical, and Social Sciences including Economics.

Each year, Annual Reviews critically reviews the most significant primary research literature to guide researchers to the principal contributions of their field and help them keep up to date in their area of research. Each article is its own search engine, providing a gateway to the essential primary research literature referenced within each topic.

**Bank Focus**

Contains banking data.

Bloomberg (Accessible via a terminal in the library)

Getting Started Guide

The Bloomberg Terminal brings together real-time data on every market, breaking news, in-depth research, powerful analytics, communications tools and world-class execution capabilities — in one fully integrated solution.

Markets

Awareness, context and analysis make Bloomberg the primary source for those who need to know what's happening now and what might happen next. The Bloomberg Terminal delivers unparalleled coverage of markets and securities with information across asset classes — from fixed income to equities, to foreign exchange, commodities and derivatives — integrated in one place and delivered in real time to your desktop or mobile device.

Tools and charting

We continually develop and apply cutting edge technologies to deliver best in class tools, such as custom desktop applications, portfolio monitors, market alerts and charting capabilities that optimize user workflow.

Trading solutions

We offer trading solutions across multiple asset classes and sophisticated pre- and post-trade analytics for both the buy side and sell side.

News

Up-to-the-minute access to the news that matters, that moves markets and that changes the course of a business can make all the difference. Our news is reported when it happens, from where it happens. With more than 2,700 news professionals in 120 countries, Bloomberg's award-winning coverage of companies, markets, economies, politics and governments ensures that you get the information you need when you need it most.

Research

Bloomberg has a broad range of research offerings including direct access to sell-side and independent research from more than 1,500 sources, as well as proprietary, analyst-driven research that provides a comprehensive view of industries and their key constituents with unsurpassed depth and breadth at the sector, industry and company levels.

Build your network

Your Bloomberg Terminal account gives you immediate membership to a community of more than 320,000 of the world's most influential decision makers. We connect you with a powerful network spanning finance, business and government professionals — whether you are generating ideas, conducting research or finding trading partners, it gives you an edge.

Real service from real people

Our industry-leading customer service teams, available 24/7 in 160 countries, will help you fully leverage the deep information, analytics, data and trading capabilities on the Bloomberg Terminal. Call or message Bloomberg customer support, and you will be in touch with a live person instantly.

Keyboard and monitors

The original, dedicated Bloomberg Terminal hardware has long since been replaced by a software-based solution that runs on any standard PC. To enhance your experience Bloomberg provides a specialized keyboard with each license, which uses color-coded keys to more effectively execute common actions. You may also elect to have a Bloomberg flat-panel monitor: versatile, ergonomic and high-quality displays with two independent screen panels attached to a space-saving frame. You can configure any number of monitors to expand your view of the Bloomberg Terminal to best suit your needs.

Documentation Support

Business Source Ultimate (EBSCO)

Business Source Complete  is the world's definitive scholarly business database, providing the leading collection of bibliographic and full text content. As part of the comprehensive coverage offered by this database, indexing and abstracts for the most important scholarly business journals back as far as 1886 are included. In addition to the searchable cited references provided for more than 1,200 journals, Business Source Complete contains detailed author profiles for the 25,000 most-cited authors in the database. Journal ranking studies reveal that Business Source Complete is the overwhelmingly superior database for full text journals in all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. Additional full text, non-journal content includes financial data, books, monographs, major reference works, book digests, conference proceedings, case studies, investment research reports, industry reports, market research reports, country reports, company profiles, SWOT analyses and more.

Business Standard

Business Standard is one of the largest Indian English-language daily edition newspapers published by Business Standard Ltd. Founded in 1975, the newspaper does extensive coverage on the Indian economy, infrastructure, international business and trade, stock and currency markets, corporate governance, apart from a range of other financial news, opinions and insights.

Cambridge Journals

Cambridge University Press publishes more than 380 peer-reviewed academic journals covering subjects across the humanities, social sciences and science, technology and medicine.

Capex

CapEx is a database of investment projects that involve the setting up of new capacities. The name "CapEx" is a concatenation of the short-form of Capacity Expansion, and of Capital Expenditure.

An investment project involves some capital expenditure and it involves some capacity expansion. The CapEx database is about the announcement of such projects, their implementation and their final culmination into new capacities.

The CapEx database captures projects that entail a capital expenditure of Rs.10 million or more.

CMIE has been monitoring the creation of new capacities ever since it was established in 1976. The monitoring work started being databased systematically in 1996. The current CapEx database therefore contains information on projects since 1995-96.

The CapEx database records the progress in implementation of investment projects. The database is a lot more than a mere listing of projects.

The CapEx database captures new projects being announced, tracks the various events of the projects in its radar and captures the end of the project. The life-cycle of a project ends when the new capacity is created and deployed into production. Sometimes, the end is less rewarding. A project may get abandoned before its completion. Or, its implementation may get suspended because of some reason.

The CapEx database captures this life-cycle of projects.A useful derivative of the CapEx database is the set of aggregates that are generated using the project-level database every quarter. They include aggregates of the value of new investments or of the completion of projects during a quarter. These provide a time-series of the investment activity in the country and are therefore a useful set of macro-economic indicators of the investment cycles in the country. It provides a range of projections of new capacities expected in the near future. CapEx is about current investment projects to create productive capacities in the future.

Capitaline Plus

Capitaline database provides fundamental and market data on more than 35,000 Indian listed and unlisted companies, classified under more than 300 industries, along with powerful analytic tools. Extensive data and analysis on every company profile, directors, more than 10-year financials (P&L, balance sheet, cash flow, consolidated financial data, segment data, forex data,

R&D data, ratios, etc), quarterly results, ownership pattern, finished products, raw materials, share price data, directors' report, management discussion, notes to account, business news, corporate events, etc.

Capitaline database is a sister product of Capital Market, India's foremost investment fortnightly. The specialized expertise in data collection, standardisation and presentation built up since 1985 has earned Capitaline database the highest level of respect and confidence in the financial information Industry.

## COMPANY

Company section of Capitaline database has extensive financial and non-financial information on Indian companies. Coverage of data on each company includes Balance Sheet, P & L, Segment Finance, Funds Flow, Cash Flow, Forex, R & D, Key Ratios, Quarterly Results, Finished Products, Share Price data, Raw Materials, Price Chart, Share-holding Pattern, Corporate events, Directors' Report, News, Research & Analysis and much more.

## INDUSTRY

The industry module in Capitaline database contains more than 300 industries' aggregate data of all companies in one industry on one screen for easy comparison. For instance, along with data on Tata Motors, you can also see financials and ratios of Ashok Leyland, Eicher Motors, etc in the same screen.

## CAPITAL MARKET - LIVE NEWS

Capitaline database package has a Live News section, which gives a wide range of news story updates including market commentary, price movements of stocks, all market reports, corporate happenings, results, IPOs, politics, economy, quarterly performance, research reports, etc.

## FACT SHEETS

http://192.168.1.13

Powerful aggregation screens displaying scoreboards of companies classified under different catalogs like Industry, House, State, Country, Product, Stock Exchange, Index, etc. Catalogs can have sub-catalogs up to 6 levels.

SCREENER IN CAPITALINE DATABASE

The Screener in Capitaline database is a very powerful, yet is an easy-to-use, analysis screen. Fundamental research and analysis techniques assist users in identifying companies that meet specific performance criteria. With close to 1,000 annual and quarterly data items, including ratios and concepts, Capitaline database data are uniquely positioned to initiate rigorous company analysis at the highest quantitative level.

CLOCKSS

CLOCKSS (Controlled LOCKSS) is a not-for-profit joint venture between the world's leading academic publishers and research libraries whose mission is to build a sustainable, geographically distributed dark archive with which to ensure the long-term survival of Web-based scholarly publications for the benefit of the greater global research community.

CLOCKSS is for the entire world's benefit. Content no longer available from any publisher ("triggered content") is available for free. CLOCKSS uniquely assigns this abandoned and orphaned content a Creative Commons license to ensure it remains available forever.

CmdtyStats (By Barchart)

The getCmdtyStats API is used to request information on various fundamentals, commodity statistics, and economic data. Users can request information by data series with historical

information available through to inception for most series. cmdtyStats™ is the premier source of aggregated commodity statistics – all made available in one easy to use API.

[Consumer Pyramidsdx](#)

Monthly Expenses- Consumption Pyramidsdx provides a detailed break up of the monthly consumption expenses of Indian households. The database contains data on 153 specific expense heads. Many of these are expense heads with further detailed expenses embedded. About a quarter of the expense heads are of food expenses. Others include clothing, footwear, cosmetics, toiletries, appliances, restaurants, utilities, transport, communication, education, health, EMIs and miscellaneous.

Weekly Expenses- This database also offers data on expenses incurred during a week on 33 expense heads. These are consumption goods or services on which expenses are made relatively more frequently and households have a better recall of these expenses. Weekly expense data is collected during every Wave and is available in the form of three snapshots corresponding to the three Waves in a year.

Adjusted monthly expenses- Monthly expenses are also collected for the expense heads for which weekly expenses are collected. These monthly expenses are available in the raw form in which they are collected and also in an adjusted form. The adjusted monthly expenses are derived using the weekly expenses assuming that weekly expenses are more reliable but, using the month-to-month variation seen int the monthly series.

Household groups- This data-set associates every household with five household groups. These groups are based on the composition of members of the households by four characteristics. These are age-composition of members, occupation-composition of members, education-composition of members and gender-composition. The fifth group is based on size, i.e. number of members in the household.

CRISIL Research

CRISIL Research is India's largest independent research house. Through constant innovation, and comprehensive research offerings, covering the economy, industry and companies, CRISIL Research meets the requirements of more than 750 Indian and global clients. Apart from off-the-shelf research reports, CRISIL also provides incisive, customised research that allows clients to take informed business and investment decisions.

Comprehensive research coverage on around 65 industries and 150 corporates makes CRISIL a preferred service provider to

·    90% of India's commercial banks

·    4 of the world's largest consulting firms

·    All the leading brokers, investment banks and private equity players

CRISIL Research Services:

CRISIL Research provides the most comprehensive and independent coverage on Indian economy, industries and companies. This integrated offering of research under these three verticals along with customized research is one of the key differentiators of CRISIL Research.

Economy Research: Covers an in depth analysis of short and medium term trends and outlook on key macro-economic variables, events, policies and key economic issues.

 Industry Research: Covers detailed research on around 65 industries. These reports are either ongoing research reports on various industries or are special detailed analysis on topical sectors such as real estate, infrastructure, logistics, and SME, and on emerging segments of the economy.
Company Reports: Covers data analysis of the top-150 listed companies.

Ebook Central (Register to use)

Ebrary helps customers acquire ebooks strategically through a three step approach involving transitioning, diversifying and streamlining™. The company believes that by challenging the ebook status quo, organizations can effectively serve the diverse and growing needs of end-users within budget.

ebrary currently has more than 4,500 library customers around the world serving more than 19.2 million end-users. More than 500 of the world's most authoritative publishers distribute ebooks on the ebrary platform.

Founded in 1999, long before ebooks were popular, ebrary is a ProQuest business located in Palo Alto, CA, USA.

EconLit

EconLit, the American Economic Association's electronic database, is the world's foremost source of references to economic literature. EconLit adheres to the high quality standards long recognized by subscribers to the Journal of Economic Literature (JEL) and is a reliable source of citations and abstracts to economic research dating back to 1886. It provides links to full-text articles in all fields of economics, including capital markets, country studies, econometrics, economic forecasting, environmental economics, government regulations, labor economics, monetary theory, urban economics, and much more. EconLit uses the JEL classification system and controlled vocabulary of keywords to index six types of records: journal articles, books, collective volume articles, dissertations, working papers, and full-text book reviews from the Journal of Economic Literature. These sources bring the total records available in the database to more than 1.2 million.

Economic Outlook

Economic Outlook provides CMIE's view on where the Indian economy stands and where it is likely headed. This view is derived from a careful and continuous monitoring of all new data releases.

Time-series analysis and an integrated view of the Indian economy form the core of CMIE's forecasts. Detailed and comprehensive statistical forecasts are presented in Economic Outlook every quarter.

Every data release is analysed at two levels:

1. Tidings: A quick descriptive presentation of new facts.

2. Analysis: An analytical and contextual intepretation of the new data release. Options and essays that describe the implications of the new/latest developments.

The core strength of Economic Outlook is the underlying database. The service provides full access to this database. Time series of over half a million indicators are provided for multiple frequencies and in the form of several derivations. The full set of indicators including all frequencies and derivations add up to over 2.9 million time-series. All these are presented in intelligently laid-out tabulations.

Tabulations are supported with readymade graphics and also a graphing tool. The data can be easily downloaded into spreadsheets or as txt files.

The Economic Outlook replaces two of CMIE's earlier services - the Economic Intelligence Service and Business Beacon.

Economist

The Economist online offers authoritative insight and opinion on international news, politics, business, finance, science and technology.

It provides all articles from The Economist print edition (including those printed only in British copies) and maintain a searchable online archive that dates back June 1997. It also offers a variety of web-only content, including blogs, debates and audio/video programmes.

### Eikon (Accessible through a terminal in the library)

Eikon is a set of software products provided by Refinitiv for financial professionals to monitor and analyze financial information. It provides access to real time market data, news, fundamental data, analytics, trading and messaging tools. It provides data on asset classes including Foreign Exchange, Money Markets, Fixed Income, Equities, Commodities, Funds, and Real Estate.

### Elsevier Journals (ScienceDirect)

Following Science Direct subject collection of journals with back files from 1995 is available online: Business, Management & Accounting- 74 titles Computer Science- 134 titles Decision Sciences-41 titles Economics & Finance-116 titles.

### Emerald Journals

Emerald Full text database covers 155 journals on management and related subjects brought out by MCB University Press,UK. The journals are indexed from 1989 and full text available from 1994 onwards.

### EMIS (click on Client Login button on top RHS to access)

ISI Emerging Markets (www.securities.com) works from over 15 offices around the world to deliver electronic information products, by subscription, to institutional customers globally. ISI provides hard-to-get information covering more than 100 emerging markets. Its flagship product is the Emerging Markets Information Service (EMIS). It delivers electronic information products by subscription to institutional customers around the world. Through its network of 30 worldwide locations, it provides hard-to-get information covering more than 80

emerging markets. Flagship products include CEIC Data, the Emerging Market Information Service (EMIS), the Islamic Finance Information Service (IFIS), IntelliNews, ISI Compliance Edition, and ISI DealWatch.

EPWRF India Time Series

EPWRF India Time Series provides vital statistics on the Indian economy in a time series format, covering the following modules:

1. Financial Markets

2. Banking Statistics (Basic Statistical Returns)

3. Domestic Product of States of India (SDP)

4. Agricultural Statistics

5. Price Indices

6. Power Sector

7. Industrial Production Series

8. Finances of Government of India

9. Combined Government Finances

10. National Accounts Statistics of India

11. Annual Survey of Industries

12. External Sector

13. Finances of State Governments in India

14. Insurance

Key features of EPWRF India Time Series include:

· Data are available in a time-series format

· Data updated timely, as and when new data arrive

· Easy download facilities with query options

· Export to Excel sheet

· Graphic visualization of data

· Ratio analysis based on user's requirements

ETPrime

ET Prime is a members-only business storytelling platform from the house of The Economic Times, India's oldest and most trusted business news brand. It has a team of hard-core reporters and editors, business analysts (and even a dentist!) who have collectively spent thousands of hours grappling with every major industry. Each ET Prime story passes through rigorous checks for three qualities: deep research that clearly establishes the context, critical analysis that tells you why you should care (or not), and simple, concise articulation that doesn't waste your time.

Fitch- Country Risk & Industry Research (Click on Login with Network) (Formarly BMI Research)

It helps to take clear-sighted business decisions and understand the opportunities and risks in markets where reliable information is hard to find and even harder to interpret. It provides information about:

Country Risk: In-depth political risk and macroeconomic analysis, robust 10-year forecasts and latest information on the local business environment for more than 200 markets.

Industry Research: From the Caribbean to China, from Healthcare to Infrastructure. Trusted global, regional and country level analysis for 22 industries and 35 commodities, backed by extensive datasets and thematic research.

Operational Risk: From supply chain and security risks, to labour market, trade and investment risks. Evaluate the ease of doing business in more than 80 emerging markets with expert insight into the factors that could impact market entry or disrupt your day-to-day activities.

Financial Times Newspaper

The Financial Times (FT) is an international daily newspaper printed in broadsheet and published digitally that focuses on business and economic current affairs. Based in London, England, the paper is owned by the Japanese holding company, Nikkei, with core editorial offices across Britain, the United States, and continental Europe.

Gartner

Founded in 1979, Gartner is a leading research and advisory company. Gartner is a trusted advisor and an objective resource for more than 15,000 enterprises in 100+ countries. It provides:

-Trusted insights

· Forward-thinking insights, verified peer-driven research, and robust metrics and data to help you make the right decisions.

· Developed through rigorous proprietary research methodologies to ensure our insights are independent and objective.

· Created by a global team of 2,250+ research and advisory experts who understand your role, business and industry.

· Complemented with peer perspectives and advice accessed through highly active online peer communities, practitioner-sourced research, and global industry conferences and live events that foster peer collaboration.

-Strategic advice

· Personal guidance to help you focus on the issues and opportunities that truly matter.

· Delivered in more than 400,000 client interactions each year.

· Provided by experts, many of who are former practitioners, to help challenge conventional thinking and accomplish critical activities.

· Informed by an annual average of 300+ new, thoroughly vetted practitioner-sourced case studies.

-Practical tools:

· Tools and programs to help you turn strategy into decisions, and execute for measurable results.

· Maturity diagnostics that cover more than 45 functional areas across the enterprise.

· 130+ Gartner Magic Quadrants, a standard for objective market analysis covering technology and technology service vendors.

· 100+ new Gartner Ignition Guides produced in 2019 for accelerating team execution of initiatives in nearly every enterprise function.

Gartner TalentNeuron™ for workforce and recruitment planning.

Grammarly (Register to use)

Grammarly's sophisticated AI not only corrects your grammatical mistakes but also makes your writing more understandable and helps you make the right impression on the reader based on

your audience and goals. In addition, Grammarly is able to check the tone of your correspondence, provide synonym suggestions to make your text more readable and precise, and even check your documents for plagiarism. With Grammarly, you can rest assured that your writing is always held to the highest standard. Grammarly's algorithms flag potential issues in the text and make context-specific suggestions to help with grammar, spelling and usage, wordiness, style, punctuation, and even plagiarism.

## IEEE Xplore

IEEE ASPP Online & POP combines high-quality technical literature with the power of online searching, including:

1 - 160 IEEE online society-sponsored journals, transactions, and magazines

& collections of 125 core conference proceedings,

2. Peer-reviewed publications, concentrating on theoretical and experimental papers.

3 - Quality magazines focusing on practical applications in research,

design, and specification.

4 - More than 279,000 documents, many of them available in HTML as well as the original PDF format.

5 - The most highly cited journals & conferences in the field.

6 - Over three million abstract records.

7 - ASPP Back files to 2000 & POP Back file to 2005.

8 - INSPEC(r) abstract/citation and bibliographic records.

9 - Links users directly from your library Online Public Access Catalog

(OPAC) catalog to IEEE titles.

10 - Online access to articles accepted for future print publication.

IMF eLibrary

The International Monetary Fund's (IMF) eLibrary simplifies analysis and research with direct access to the IMF's periodicals, books, working papers and studies, and data and statistical tools. You will find information and perspective on macroeconomics, globalization, development, trade and aid, technical assistance, demographics, emerging markets, policy advice, poverty reduction, and so much more.

India Business Insight

India Business Insight Database - IBID, a product of Informatics (India) Ltd, is the key. A compilation of vital information on Indian business and industry from various business magazines and newspapers, IBID saves your time and keeps you constantly in touch with the fast changing business environment.

IBID is the only product of its kind to offer rich and rare insights into developments in Indian business and industry from both local and global perspectives. It is a comprehensive database covering news and analysis of information-rich stories on Indian industry judiciously chosen from leading business and industry sources. By presenting an uninterrupted, continually updated and complete view of the Indian economic scenario, with ready capsules of critical information, IBID keeps the business world in live touch with the realities that affect them directly.

IndianJournals.com

IndianJournals.com is a comprehensive collection of Indian academic and professional publications that facilitates the users to view and use the collective information at a single uniform platform.

Indian Capstone Simulations

Indian Capstone Simulations is an ed-tech company focused on bridging the gap between education and employment through skill enhancing Simulations. Simulations mimic real corporate work environment with live Indian situations, delivered through excel spreadsheets. All the simulations come with self-scoring automation that help train and test candidates. Simulations can be used by educators as a teaching tool; by students as a learning tool; and by employers as a recruitment and training tool. This initiative is founded by Badri Narayanan, a Chartered Accountant and a former partner at Ernst & Young. He has extensive corporate and teaching experience in the areas of accounting, corporate finance, restructuring, M&A and investing fields. The simulations are designed by senior practitioner's having considerable experience in corporates like Ernst & Young, Kotak, Bosch and Crisil. Several leading professors from IIM's, S.P. Jain, and other prestigious management colleges and senior practitioners from corporates like Kotak and SBI have been consulted for their inputs and feedback. Indian Capstone Simulations is a product of EquityLevers World Private Limited, Mumbai.

Indiastat

Indiastat.com is a cluster of 57 sites including India-specific, Sector specific,Region specific and State specific sites rendering its dedicated services to the research fraternity from academic, professional and corporate world with authentic and comprehensive compilation of secondary level socio-economic statistical data about India and its states,Region and Sector on more than 35 variables.

Industry Outlook

Industry Outlook is a comprehensive service that provides detailed information on Indian industries. It includes the mining, manufacturing, utilities and and services industries. A total of 193 industries are covered.

The service provides detailed historical data on capacity, production, foreign trade, sales, prices, annual and quarterly financial performance of the industry and its detailed break-up by companies, new capacities built and expected to be commissioned, performance of listed companies on the bourses, data culled from the Annual Survey of Industries and from RBI's industrial outlook surveys.

Industry Outlook provides insights, outlook and forecasts. It is designed to provide a near to medium term view of Indian industries.

Industry Outlook provides a well-balanced presentation of data, analysis and forecasts on a large number of industries.It presents the following kinds of information:

The service draws upon data available from government sources, industry and trade associations, commodity markets, firm-level databases and project-level information. It weaves these disparate sources into meaningful and well-organised presentations of the current and prospective trends in Indian industries.

 1. Demand & Supply: Capacity and production details sourced from associations and government, foreign trade from DGCIS and prices from diverse sources including CMIE-polled prices are presented here.

2. Annual Financials:We present aggregate and company level financial performances including analytical ratios and cost structures.

3. Market Share:This is an insightful compilation of shares of companies in products of an industry.

4. Quarterly Financials:For listed companies.

5. Stocks:We present valuation metrics of listed companies.

6. CapEx: Trends in proposals to create new capacities, their completions, stalling, abandonments or revivals are provided along with their distribution by States and by Ownership.

7. Annual Survey of Industries: Aggregate financial data based on a survey of factories by the Union government is presented.

8. Forecasts:We provide forecasts on demand & supply indicators, financial performances and capex. Results of RBI's Industry Outlook Survey are also available.

9. Analysis:We present our short essays giving insights into what data and news tell us about the industries.

10. Monthly Review: A review of each industry is published every month.

 INFORMS Journals

It includes journal back files and 12 journals.

 IGI Global

It is a package for academic and public libraries, which offers electronic access to all journals published by IGI Global in one easy-to-use online format. InfoSci Journals is an extensive, academic, online full-text journal database which provides libraries access to hundreds of journal articles from IGI Global's collection of over 153 journals. Currently there are over 12,000 research articles available, each focusing on the latest research in:

- Databases, Data Warehousing & Mining

- Distance Learning & Education

- Global Information Technology

- Healthcare Information Systems

- E-Commerce, E-Government & M-Commerce

- IT Business Value, Support & Solutions

- IT Engineering, Modeling & Evaluation

- Knowledge Management

INSIGHT

Insight is a product that filters, refines, transforms, enriches and interprets raw financial data. Its ability to capture and represent such data has created a competency in data analytics, which, combined with our other legacy capabilities, enables us to give the users of Insight that extra edge.

Insight is one of the most exhaustive products relating to Indian financial markets, encompassing the accurate and objective data. With Insight, you can conduct your research on any asset class – equities, mutual funds, commodities, debts, etc. It provides:

- Comprehensive fundamental data on 5500+ listed companies in India

- Live market data (NSE/BSE/NCDEX/MCX)

- Mutual funds data

- Live tools and analysis

- Live Charts

Institute for Studies in Industrial Development (ISID)

The Institute for Studies in Industrial Development (ISID), successor to the Corporate Studies Group (CSG), is a national-level policy research organization in the public domain and is affiliated to the Indian Council of Social Science Research (ICSSR). Developing on the initial strength of studying India's industrial regulations, ISID has gained varied expertise in the analysis of the issues thrown up by the changing policy environment. The Institute's research and academic activities are organized under the following broad thematic areas:

•	Industrialization

•	Corporate Sector

•	Trade, Investment and Technology

•	Regulatory Mechanism

•	Employment

•	Public Health

•	Media Studies

•	Other Issues

ISID has developed databases on various aspects of the Indian economy, particularly concerning industry and the corporate sector. It has created On-line Indexes of Indian Social Science Journals (OLI) and Press Clippings on diverse social science subjects. These have been widely acclaimed as valuable sources of information for researchers studying India's socio-economic development.

J-Gate

J-Gate is an electronic gateway to global e-journal literature. Launched in 2001 by Informatics India Limited, J-Gate provides seamless access to millions of journal articles available online

offered by 13,238 Publishers. It presently has a massive database of journal literature, indexed from 45,055 e-journals with links to full text at publisher sites. J-Gate also plans to support online subscription to journals, electronic document delivery, archiving and other related services.

a. Table of Contents (TOC)- For 45,055 e-journals.

b. Database - A comprehensive searchable database with 48,066,238 articles, with 10,000+ articles added every day.

Journal Citation Reports

Journal Citation Reports is a comprehensive and unique resource that allows you to evaluate and compare journals using citation data drawn from over 11,000 scholarly and technical journals from more than 3,300 publishers in over 80 countries. It is the only source of citation data on journals, and includes virtually all areas of science, technology, and social sciences. Journal Citation Reports can show you the:

• Most frequently cited journals in a field

• Highest impact journals in a field

• Largest journals in a field

Journal Citation Reports® is published annually in two editions.

JCR Science Edition contains data about more than 8,000 journals in science and technology.

JCR Social Sciences Edition contains data about more than 2,600 journals in the social sciences

Citation and article counts are important indicators of how frequently current researchers are using individual journals. By tabulating and aggregating citation and article counts, JCR offers a unique perspective for journal evaluation and comparison

JSTOR

JSTOR offers high-quality, interdisciplinary content to support scholarship and teaching. The JSTOR digital archive includes more than 1,500 leading academic journals in the humanities, social sciences, and sciences, as well as select monographs and other materials valuable for academic work such as Hebrew language journals. The entire back runs of journals (from volume 1, issue 1) are always included, and in 2010 JSTOR expanded its vast collection of archival content to include the most recent issues of select academic journals through the Current Scholarship Program.

Additional collections include valuable primary source content. The entire corpus is full-text searchable, offers search term highlighting, includes high-quality images, and is interlinked by millions of citations and references. The content is expanded continuously with an emphasis on international publications as well as pamphlets, images, and manuscripts from libraries, societies, and museums.

JSTOR content is placed in collections, and institutions are able to choose which collections best serve their needs.

Ken

Founded by a team of experienced journalists and entrepreneurs, The Ken pioneered subscribers-only online business journalism. Born in October 2016, into a world populated with scores of media sources churning out countless pieces of "content" endlessly, hoping for traffic or readership they could monetise, we chose not to play the game. Instead, we published just one story each day. But a story that was original, analytical, deeply-reported and skillfully-narrated. Accessible exclusively to our subscribers without exception, and delivered through our distinctive applications and formats. It's something we continue to do.

Manupatra

Manupatra is the leading law publishers and provider of Legal, Taxation, Corporate and Business Policy content in India.

http://192.168.1.13

MarketLine

Profiling all major companies, industries and geographies, MarketLine is one of the most prolific publishers of business information today. It provides access to:

•       Online access to 30,000+ company profiles, 3,500+ industry profiles

•       50,000+ financial deals & company news

•       Country Statistics Database

•       Bespoke training sessions

New York Times

The New York Times (NYT) is an American newspaper based in New York City with worldwide influence and readership. It has long been regarded within the industry as a national "newspaper of record". The paper's motto, "All the News That's Fit to Print", appears in the upper left-hand corner of the front page. Founded in 1851, the paper has won 130 Pulitzer Prizes, more than any other newspaper.

Library PressDisplay

It provides instant online access to today's newspapers from around the world in full-color, full-page format. The ever-expanding collection currently includes more than 2,000 U.S. and international titles—from 100 countries in 56 languages. Just like reading the familiar print edition, viewers can browse articles and other key content, such as pictures, advertisements, classifieds, and notices. The service also provides up to a 60-day backfile and the ability to perform keyword searches across all titles and the entire backfile.

NSE- Historical Trade Data- CM & FAO Segment

It contains high frequency data of CM & FAO segment, which includes tick by tick quotation of stocks and derivatives.

**Orbis (Database on Financial Information of Private Companies)**

Oxford Journals

Oxford University Press (OUP) is the largest university press in the world. Oxford University Press (OUP) publishes the highest quality journals and delivers this research to the widest possible audience. We achieve this by working closely with our society partners, authors, and subscribers in order to provide them with publishing services that support their research needs.

Palgrave Macmillan Journals

It has been acquired by the Springer.

Passport (Euromonitor)

Passport is a global market research database providing statistics, analysis, reports, surveys and breaking news on industries, countries and consumers worldwide. Passport connects market research to your company goals and annual planning, analysing market context, competitor insight and future trends impacting businesses globally. And with 90% of our clients renewing every year, companies around the world rely on Passport to develop and expand business opportunities, answer critical tactical questions and influence strategic decision making.

Passport offers and examines:

Detailed analysis of consumer and industrial markets around the world across 781 cities, 210 countries, and 27 industries with historic data from 1997 and forecasts through 2020. Passport data is completely cross-country comparable.

Industry analysis across fast moving consumer goods and services, including market performance, market size, company and brand shares and profiles of leading companies and brands.

Industrial makeup of the world's largest economies, examining business to business economic influences and the forces behind strategy development, production and supply chains, economic modeling and forecasting, econometrics, data mining, scenario planning, urban economics and wealth distribution.

Data and analysis on consumer lifestyles, population trends, and socioeconomic analysis for every country, lifestyle and consumer type down to the city level.

Timely commentary on factors influencing the global, regional and local business environment

Surveys exploring consumer opinions, attitudes and behaviours.

### Project MUSE

Project MUSE is a leading provider of digital humanities and social science content for the scholarly community. Since 1995 the MUSE journal collections have supported a wide array of research needs at academic, public, special, and school libraries worldwide. MUSE is the trusted source of complete, full-text versions of scholarly journals from many of the world's leading university presses and scholarly societies, with over 120 publishers currently participating. UPCC Book Collections on Project MUSE, launched in January 2012, offer top quality book-length scholarship, fully integrated with MUSE's scholarly journal content. Our Mission: Project MUSE's mission is to excel in the broad dissemination of high-quality scholarly content. Through innovation and collaborative development, Project MUSE anticipates the needs of and delivers essential resources to all members of the scholarly community.

ProQuest Dissertations & Thesis

ProQuest Dissertations and Theses — Full text is the world's most comprehensive collection of dissertations and theses. The official digital dissertations archive for the Library of Congress and the database of record for graduate research. PQDT — Full Text includes millions of searchable citations to dissertation and theses from around the world from 1861 to the present day together with over a million full text dissertations that are available for download in PDF format. Over 2.1 million titles are available for purchase as printed copies. The database offers full text for most of the dissertations added since 1997 and strong retrospective full text coverage for older graduate works.

More than 70,000 new full text dissertations and theses are added to the database each year through dissertations publishing partnerships with 700 leading academic institutions worldwide and collaborative retrospective digitization of dissertations through UMI's Digital Archiving and Access Program. Full Text dissertations are archived as submitted by the degree-granting institution. Some will be native PDF, some PDF image.

ProwessDX

Prowessdx is a delivery of the Prowess database that is specially designed for academia. It facilitates easy download of large amounts of data from the Prowess database.

Prowessdx India delivers data for over 49,000 companies. It provides a time-series of financial and markets data since 1990. The database does not suffer any deliberate survival bias.

The service facilitates storage of specification files used to download data, sharing of the specification files and replication of downloads. Prowessdx delivers the data as de-limited text files. The service envisages users processing the downloaded data in professional statistical packages or using their own software.

The database includes the following kinds of information:

1. Basic identity and classification information

2. Board of directors and ownership of equity

3. Auditors, bankers, subsidiaries

4. Related party transactions, bulk deals, insider trading

5. Annual financial statements of standalone and consolidated statements including all financial ratios

6. Interim financial statements and ratios

7. Stock prices, dividend declarations, daily total returns, earnings ratios

8. Business segments, products produced or traded, energy consumption

9. Mergers and acquisitions

The database is standardized to enable inter-company and temporal comparability of the data.

 ProwessIQ

ProwessIQ is a query-able database of over 50,000 Indian companies.

The Prowess database includes all companies traded on the National Stock Exchange and the Bombay Stock Exchange, thousands of unlisted public limited companies and hundreds of private limited companies.

The database is built from Annual Reports, quarterly financial statements, Stock Exchange feeds and other reliable sources.

There are over 3,500 data-fields per company in the Prowess database. The database is standardised to enable inter-company and temporal comparisons. ProwessIQ provides time-series data from 1989.

Prowess is most useful in applications where we need to find companies that satisfy a set of conditions. ProwessIQ is designed to facilitate the clear articulation of the conditions of a search and the delivery of a well-formatted output of the consequent results.

PsycARTICLES

PsycARTICLES is a database of full-text articles from journals published by the American Psychological Association, the APA Educational Publishing Foundation, the Canadian Psychological Association, and Hogrefe & Huber. The database includes all material from the print journals.

The database can be searched in several ways including by specifying keywords that may occur in the article title, abstract, or the full-text, or by author names and journal titles. Each retrieved record has a link to the corresponding full-text article, which is almost always available in PDF format (so Adobe Acrobat reader is needed for viewing) and in HTML format. Each record also has a link to the Table of Contents (TOC) for the issue in which the article is published.

The database can also be searched for articles of interest by browsing directly through the journal titles and then clicking to the tables of contents for the respective volumes and issues.

Journals Covered

Most of the APA journals included in PsycARTICLES now go back to volume 1, issue 1. The earliest journal is Psychological Review, which was started in 1894. The database also contains journals that are no longer published.

Articles published from 1985 forward are in both PDF and HTML format. Articles published prior to 1985 are available only in PDF format. All PDFs are searchable.

PsycINFO

PsycINFO is an expansive abstracting and indexing database with more than 3 million records devoted to peer-reviewed literature in the behavioral sciences and mental health, making it an ideal discovery and linking tool for scholarly research in a host of disciplines.

Comprehensive Coverage

· More than 3.5 million records, covering psychology back to its underpinnings in the 17th Century

· Records for peer-reviewed journals, books, and dissertations

· Professional coverage beyond psychology to include related disciplines such as medicine, law, social work, neuroscience, business, nursing, forensics, engineering, and more

Sage Journals

SAGE publishes more than 454 journals in Business, Humanities, Social Sciences, and Science, Technology and Medicine. SAGE Journals Online is the delivery platform that provides online access to the full text of individual SAGE journals. The SAGE Full-Text Collections, SAGE's award-winning, discipline-specific research databases, are also available on SAGE Journals Online.

Sage Research Methods

SAGE Research Methods supports research at all levels by providing material to guide users through every step of the research process. Nearly everyone at a university is involved in research, from students learning how to conduct research to faculty conducting research for publication to librarians delivering research skills training and doing research on the efficacy of library services. SAGE Research Methods has the answer for each of these user groups, from a quick dictionary definition, a case study example from a researcher in the field, a downloadable teaching dataset, a full-text title from the Quantitative Applications in the Social Sciences series, or a video tutorial showing research in action.

SAGE Research Methods is the ultimate methods library with more than 1000 books, reference works, journal articles, and instructional videos by world-leading academics from across the social sciences, including the largest collection of qualitative methods books available online

http://192.168.1.13

from any scholarly publisher. The site is designed to guide users to the content they need to learn a little or a lot about their method. The Methods Map can help those less familiar with research methods to find the best technique to use in their research. Built upon SAGE's legacy of methods publishing, SAGE Research Methods is the essential online tool for researchers.

## Supreme Court Cases Online

It contains Full Text of the judgments of the Supreme Court of India from 1950 - till date. The CD-ROM provides more coverage of the case-law of the Hon'ble Supreme Court as it includes both reportable as well as non-reportable cases. It is a very popular and authentic software program and database from the publishers of the widely acclaimed journal "Supreme Court Cases" (SCC) now in its 41st year of reporting the judgments of the Supreme Court of India. The CD-ROM contains over 308 volumes of SCC (over 1,50,000 printed pages) as well as cases of the period prior to the start of publication of SCC in 1969 i.e. for the years 1950 to 1968.

## Scopus

Scopus is the largest abstract and citation database of peer-reviewed literature – scientific journals, books and conference proceedings. Delivering a comprehensive overview of the world's research output in the fields of science, technology, medicine social sciences and arts and humanities, Scopus features smart tools to track, analyze and visualize research. From researchers pursuing scientific breakthroughs to academic institutions and government agencies evaluating research, Scopus is the abstract and indexing database of choice. Worldwide, Scopus is used by more than 3,000 academic, government and corporate institutions and is the main data source that supports the Research Intelligence portfolio.

## SDC Platinum (Accessible through a terminal in the library)

SDC Platinum is the industry standard for information on bond and equity new issues, M&A, syndicated loans, private equity, project finance, poison pills and more. Backed by Thomson Financials international team of expert analysts, SDC Platinum satisfies your need for reliable data from globally-consistent, locally-focused sources.

As the worlds foremost financial transactions database, SDC Platinum is the source for the most thorough and accurate account of the global financial marketplace. SDC Platinum provides a robust database for analyzing investment banking and deal trends, identifying comparable deals, monitoring deal activity and generating industry-leading league tables and market share analysis.

Comprehensive coverage: More than 1.9 million transactions and 7,500 data items, illustrating companies throughout their entire lifespan.

Global issues: Historical and on-going coverage of more than 119,000 global quality offerings and 550,000 global bond offerings.

Worldwide syndicated loans: Coverage spans more than 142,000 transactions and hundreds of data elements.

Worldwide mergers, acquisitions and alliances: Covers approximately 672,000 global M&As from 1985 to the present.

Global public financings: Historical and on-going coverage of more than 418,000 U.S. municipal new issues and thousands of Canadian and international public financings.

Springer Journals

1700 journals of Kluwer Publishers with back file from 1997 is available online.

States of India

States of India is a statistical compendium of the 36 states and union territories and 675 districts of India. Statistics on states are released by various state & central agencies. CMIE excels in compiling all this information into one cohesive and seamless offering.

The statistics covered here include a wide spectrum of economic and socio-economic indicators. State domestic product, inflation, banking, public finance, agriculture and industry are examples of the types of economic indicators covered. Energy and infrastructure indicators include data on

electricity, coal, petroleum & gas, railways, roadways, ports, civil aviation and telecommunications. Socio-economic indicators such as those on demographics, household amenities, education, health, employment and crime are covered extensively.

States of India also includes statistics on general and assembly elections. And, it contains detailed trends in investments based on CMIE's CapEx database.

Annual Survey of Industries, the largest database on industries at the state level, is presented in the form of easily accessible tabulations. Automobile sales and tourism also form part of the data on industries in States of India.

Time-series data is available for most indicators from 1990-91 onwards. Tabulations are designed to enable easy time-series analysis. Separate presentations enable inter-state comparisons. Navigation is supported by two-way axis of movement - by type of data and by geography.

The service provides access to a large number of source documents used in the creation of the database presented in States of India, and various policy announcements of the state governments.

Scores of news items are posted everyday from a large number of credible sources to keep you informed of events and announcements in the various parts in India.

 Statista

Statista is an online portal providing data on the global digital economy, industrial sectors, consumer markets, public opinion, media, demography and macroeconomic trends. Quantitative data from 425 economic sectors in 50 countries are provided with a range of infographic tools for analysis and visualisation. Statista GmbH (Hamburg) collects and aggregates data from multiple public and licensed sources, including ACTA, AWA, Gfk, Outfit, Scarborough, Simmons, Target Group Index and VUMA. Statista also generates industry reports, market forecasts and 'toplists' of sectoral statistics.

We can find data via the Statista search box, or the top menu tabs. Results can be filtered by left-menu facets, including country/region, industrial category and publication date. Result sets can also be sorted by category: statistics, forecasts, studies, industry reports or infographics and download data in Excel, PNG, PDF and PPT formats. Users can export citations and related parameter metadata for all datasets. Visualise data as tables, bar charts and line graphs. Metadata labels can be customised. Forecasts, topic dossiers and toplists are also available.

- Digital Market Outlook and Consumer Market Outlook provide analysis of sectoral trends in the digital economy and consumer markets, including revenue and country-specific developments - Industry Reports provide overviews of developments in major industries - Toplists rank the first 100 private and listed companies, by sector; providing revenue data, number of employees, annual net profit/loss information and 3-year market capitalisation data.

 Taxmann

It covers Direct Tax Laws and Corporate Laws.

Taylor & Francis Journals

Achieves: Business Management & Economics

Subjects Covered:

·       Accounting and Finance: An extremely successful and varied list

·       Business and Management: Covers human resources, marketing, public management and business history

·       Economics: Reflects the huge diversity of approaches and schools of thought within economics

http://192.168.1.13

TRACXN (Registration required)

Tracxn tracks innovative companies across 300+ Technology Sectors, 900+ Emerging Themes, and Dedicated Coverage on 30+ Countries. It is a AI + Human-in-the-Loop platform for Deal Discovery. It is designed with precision for:

· Private Market Investors - VC, PE, IB, Incubators, Angel Networks, Family Offices

· Large Corporates - M&A, Innovation and Digital Transformation Teams

· Government Agencies, Industry Bodies, Universities

Tradedx (Register to use)

Tradedx (Trade Data eXtraction Interface) is a database comprising data for India's foreign trade. It is a delivery of foreign trade database that facilitates easy downloading of the data in simple text format. Data can be downloaded for value and for quantity wherever available. India's trade data is collected and disseminated by Directorate General of Commercial Intelligence & Statistics (DGCI&S) in two classification systems - Principal Commodities (PC) and Indian Trade Classification (ITC). PC data is of relatively faster frequency but it does not provide data by detailed classification. PC data is available for 168 commodities each for exports and imports. It is available for monthly, cumulative and annual frequency. ITC data is released by DGCI&S with a lag but is a more detailed presentation. It is available for commodity classification at the 2-4-6-8 digit level for around 20,000 commodities. Data is available for monthly, cumulative and annual frequency.

UNWTO ELibrary

UNWTO Elibrary is an online service from the World Tourism Organization (UNWTO) with a broad coverage of tourism and related subject areas.

The UNWTO Elibrary is an information source offering an unparalleled coverage of research and information in the area of tourism and available to our Member States, Affiliate Members, subscribers and general public.

The subject areas reflect all important themes moving the tourism sector and include, among others, ecotourism and sustainable development, tourism statistics, market research, innovation and new technologies and tourism policies. The UNWTO Elibrary contains books, journals and statistical reports by country and by indicator.

Tourism Statistics provides most up-to-date tourism statistics for all the countries and regions around the world. Data on inbound, domestic and outbound tourism is available, as well as on tourism industries, employment and complementary indicators. All statistical tables available are displayed and can be accessed individually.

Venture Intelligence

The Venture Intelligence service, launched in 2002, is the leading source of information and analysis on private company financials, transactions (private equity, venture capital and M&A) and their valuations in India. It provides information about:

• Private Equity / Venture Capital Investments and M&A deals - including their valuations

• Financials of Privately Held Companies

• Contacts of PE/VC investors and Advisory Firms

• News on Cos looking for investors and M&A deals; New PE/VC Funds being raised, etc.

Wall Street Journal

The Wall Street Journal is a daily business and financial newspaper. It was founded by Charles H. Dow, of Dow Jones & Company, primarily to cover business and financial news. The Journal's opinion and editorial pages reflect a wide range of highly informed business, political, and economic opinions; readers' letters; and reviews of and comments on the arts. The long-established structure of the Journal includes complete tables reporting all financial and stock

market activity for the preceding day as well as thorough reports and analyses of current business topics.

[Wharton Research Datas Services (Compustat/CRSP)](#) (Register to use)

WRDS is a web-based business data research service from The Wharton School of the University of Pennsylvania. Provides access to financial, accounting, banking, economics, marketing, and public policy databases through a uniform, web-based interface. Strengths include deep archives of historical data, a common web interface for access to all WRDS databases, and a variety of output file formats.

Compustat (United States) and Global Vantage (international) contain fundamental financial and price data for active and inactive publicly traded companies. Compustat goes back annually to 1950, and Global Vantage goes back to 1993. Data available on WRDS includes North America Daily, Global Daily, Bank Daily, Historical Segments Daily, Snapshot Monthly Updates, and Execucomp Monthly Updates.

Bank Fundamentals (annual and quarterly) includes financial, statistical, and market information on the largest and most important banks in the United States, including a wide range of fundamental and technical data.

Center for Research in Security Prices (CRSP)

Security-level historical pricing, returns, and volume data on more than 20,000 stocks (inactive and active companies) from the NYSE, AMEX, and NASDAQ markets, dating back to 1925 (monthly data) and 1962 (daily data). CRSP also includes United States market indices, treasuries, and mutual funds, and a merged database with S&P's Compustat data.

[Web of Science](#)

By meticulously indexing the most important literature in the world, Web of Science has become the gold standard for research discovery and analytics. Web of Science connects publications and

http://192.168.1.13

researchers through citations and controlled indexing in curated databases spanning every discipline. Use cited reference search to track prior research and monitor current developments in over 100 year's worth of content that is fully indexed, including 59 million records and backfiles dating back to 1898. Benefit from cover-to-cover indexing with objective evaluation processes to meet the highest standards Get comprehensive and relevant coverage from a trusted standard in research coverage Identify hidden patterns, gaining insight into emerging research trends

[Westlaw India](#)

Westlaw India provides comprehensive legal contents along with editorial enhancements that makes research easier. The case laws are headnoted, categorized into specific subjects and carries links to cases cited and legislation cited. Westlaw India is updated on daily basis, which means you are always abreast with the current happenings in the field of Law.

Content Highlights:

Supreme Court Cases and Orders

From your desktop, you can access a complete archive of the full text of decisions delivered by the Supreme Court

from 1950 till date, as well as recently delivered Supreme Court Orders.

It also includes High Court Cases.

Indian Legislation  coverage includes all Bare Acts from 1850 to today and a comprehensive collection of Rules and Regulations from 1890.
